IMPROVING THE CUSTOMER EXPERIENCE AT THE POINT-OF-SALE

TELIUM TETRA OS

**MULTIPLE PAYMENT
OPTIONS**

TOP-NOTCH SECURITY

FASTER NFC PAYMENTS

INTUITIVE INTERFACE

Businesses are always looking for ways to do things faster, better and more efficiently. They want to create unique customer experiences that will help them secure sales, increase conversions and promote their brand.

What's the solution? Ingenico's new Desk/5000, a fully integrated payment terminal with best-in-class payment technology, top-notch security and support for all payment options.

Offer your clients a seamless payment experience on a remarkably intuitive interface with a dedicated card reader for faster NFC payments.

The best part? A large colour touchscreen with multimedia capabilities and a variety of business applications that will soon be enabled.

There's no question about it, business owners who embrace technology do things faster, better and more efficiently.
